

"We are Técnicos Euroelectric,
we make Grupo FEM"

Grupo FEM designs a more magnetic website

www.grupofem.es links its company to the visitor and the whole sector.

Abanilla, the 1st of May, 2016

Catalogue, company history, team, social media, press room, news, useful links and glossary, are some of the sections included on the new website.

This murcian brand specialized in metal management equipment, has got new resolutions to provide value not only to the metal sector, but also to the whole society.

One of its resolutions is about updating the website www.grupofem.es. The brand pretends to create a virtual magnetic field to attract visitors and to honour its equipment and machinery.

This is the reason why new sections have been created for the user not only to deeply read about Grupo FEM machines -designed, made, assembled and tested in house-, but also to browse much more areas. This way, the new website tells the company history and introduces its team. Besides, the user will be able to have a look to the brand Social Media, such as Facebook, Twitter, LinkedIn or Youtube.

What are Grupo FEM mission and vision? And what about its values? All of this information and much more will be displayed on the new website for the user to discover new things about Grupo FEM.

Moreover, our visitors will have the chance to get in our Press Room and read about the last news regarding the Company. Even more, if you click on 'News' you will find information about the whole sector.

Press Release

On the other hand, the 'Useful Links' mean a really handy way to keep on investigating. This section contains different kind of links to browse some others organizations, associations and institutions websites. All of them, related to the metal or recycling business.

Last but not least, if someone comes up with any doubt or question, our website has also got a 'Glossary' to solve any questionn about our equipment, magnetism or recycling,
